<u>Use Case: Enterprise Financial Analytics & Unified Reporting (Banking / Insurance / Corporate Finance)</u>

Critical Issue

Large enterprises face:

- Manual Excel-heavy FP&A

- Long closing cycles

- Fragmented finance systems (ERP, GL, billing, CRM)

Fabric Solution

- Integrate all data sources into OneLake.

- Data Warehouse for structured finance data.

- Dataflows for automated loading.

- Power BI for CFO dashboards (P&L, cash flow, liquidity).

Outcome

✓ Faster month-end close
✓ Automated revenue reporting
✓ Improved forecasting accuracy

Verticals: Banking, Insurance, FMCG, Pharma, Corporate Finance.
